EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE

Comment on Submissions

1. This communication is responsive to submissions of 19 November 2001.

Allowable Subject Matter

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art does not disclose a mechanism for discharging a container having a lid for opening and closing an opening through which a sheet-like member is inserted, from a containing loading unit of a sheet-like member processing apparatus, as specifically claimed, including at least a lid closing roller for engaging the lid to close the lid and automatically delivering the container to a predetermined position and a rotary actuator for rotating the lid closing roller.

The examiner notes that while it is known in the art to utilize a lid closing roller for engaging the lid to close the lid automatically (see for example Iiyama -- US 6,342,708 B1 -- at col. 9, lines 50-64 and Fig. 2), the prior art does not fairly suggest the lid closing roller is also arranged to deliver the container to a predetermined position.

The remaining claims are allowable based on their dependency.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
